Ex-5

Experiment on packet capture to wireshark

Aim:

To filter, capture, view, packets in wireshark tool.

Capture 100 packets from the Ethernet IEE 802.3 LAN Interface and save it.

Procedure:

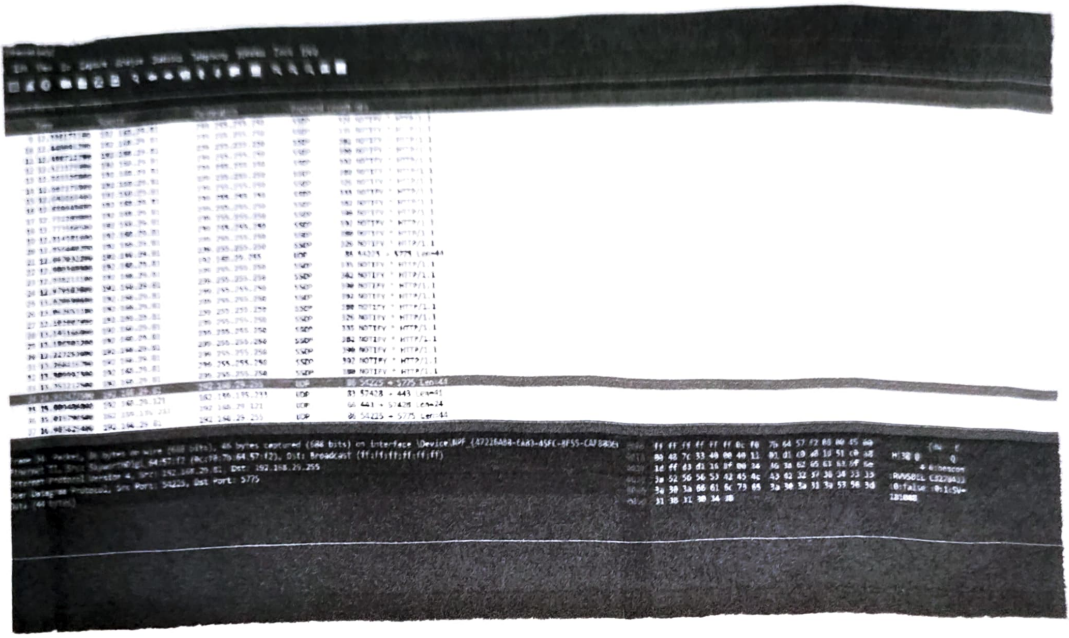

* Select Local Area Connection in wireshark
* Go to Capture → option
* Select Stop Capture automatically after 100 packets.
* Then click start capture.
* Save the packets.

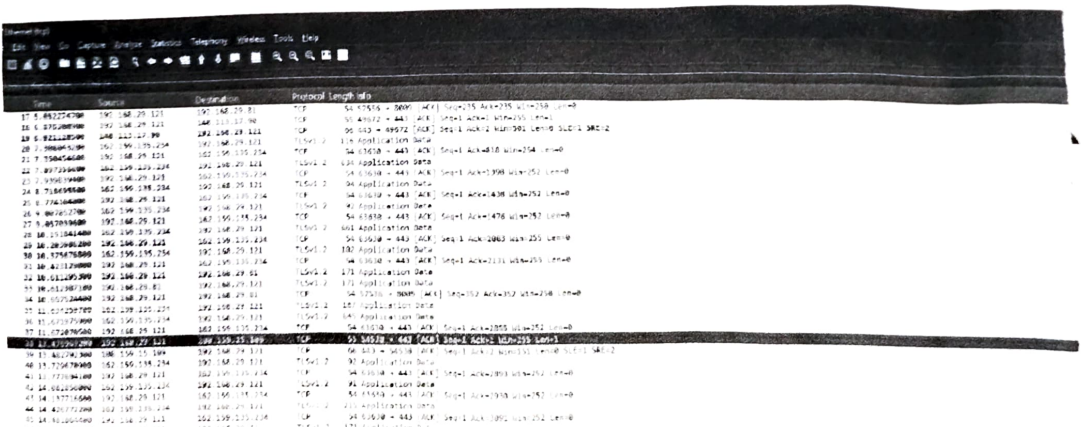

1) Create a filter to display only TCP/UDP packets

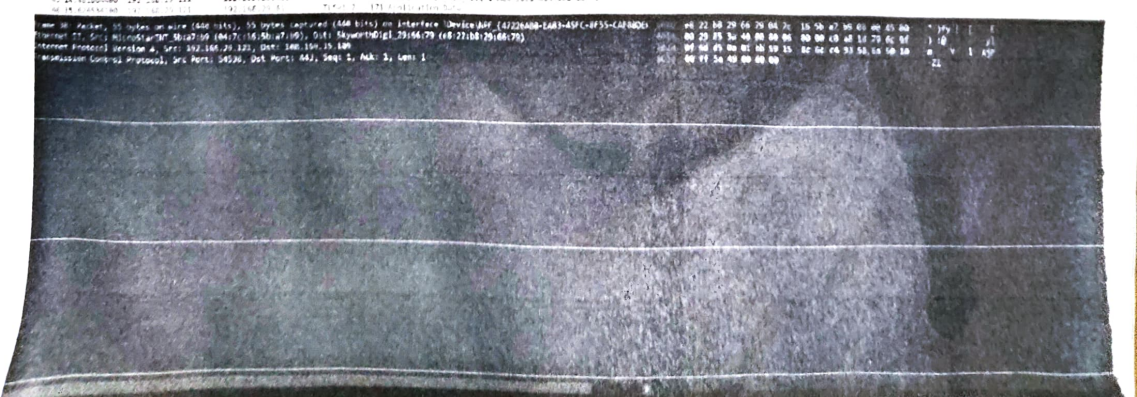

Procedure:

* Select Local Area network Connection in wireshark

* Go to Capture → options
* Select Stop capture after 100 packets
* then Start capture
* To see the flow graph statistics
→ Flow graph

Successfully.
